Exhibitor Voices

“

Today at CMEF, we're excited to see GE Healthcare teaming up with local universities and labs more than ever before. We are committed to working together to bring new vitality and momentum to the high-quality development of medical and health care through cutting-edge innovation, talent training, and improved medical services.

”

“

The Italian Trade Agency in Shanghai was really happy to participate with an Italian national pavilion at CMEF fair 2024. It was definitely a great opportunity to showcase the excellence and innovation of Italian technology in the medical devices sector to our Chinese counterparts.

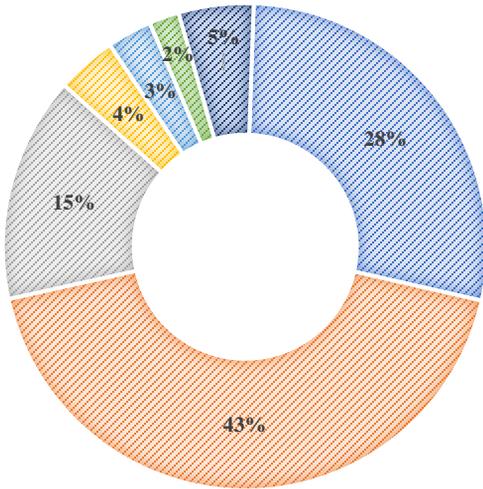

Augusto Di Giacinto
(Director of ITA Office in Shanghai)

Visitors said they are satisfied with the 89th CMEF

Visitors expressed intension to visit CMEF again

“

It's first time for me to come to CMEF. The show is excellent, allowed us to see the latest development of new medical technologies in China and the world. The conference gives us opportunities to learn from regulatory of other countries, which is very important to country like Mozambique. We're very happy to join the study organized by GHWP. It is a good platform for us to study from China and the world.

Joao Cassiano
(Mozambique Drug Authority)

”
